4. *Oxford University.* In certain colleges, one of a class of undergraduate members (no longer existing under that title: see quot. 1852) who received their lodging and most of their board free, and were excused lecture fees.

Originally the servitors acted as servants to the fellows, and although the requirement of menial services from them gradually fell into disuse, they continued to be regarded as socially the inferiors of the commoners. The last mention in the Oxford University Calendar of servitors as an existing class (at Christ Church) is in 1867; in the following year the same persons are called 'exhibitioners'. In most of the colleges the funds originally used for servitorships are now used for 'exhibitions', but at Balliol for scholarships. The scholars of Balliol appear in 1507 as 'scholastici sive servitores'.

Hawkins *Johnson* 12 It was the practice in his time, for a servitor, by order of the master, to go round to the rooms of the young men, and knocking at the door, to enquire if they were within, and if no answer was returned, to report them [illegible] [illegible] issuing within the last twenty years to bring the first dish into the Hall; but now they differ from other Students of that Society in little, except in academic dues. In some other

colleges the class of Servitors are represented by Clerks or Bible-Clerks, of whom there are about forty in the University. 1858 [J. C. Thomson] *Almæ Matres* 86 Christchurch ..is the only College which preserves the odious distinction of servitors, or as they call them, 'scrivs.'

7. In *Civil Law* (= L. *servitus*), and hence in *Scots Law*: a subjection or subserviency of property either: (1) to some definite person other than its owner ('personal servitude'), or (2) to some definite property other than that of its owner for the benefit of the dominant property ('prædial servitude'). In *Scots Law* the term is now in practice restricted to prædial servitude, which includes both the 'easement' and the 'profit à prendre' of English Law; it has been sometimes used by English lawyers to include both these kinds of rights.

A personal servitude (of which usufruct is an example) could be constituted either over movables or immovables; a prædial servitude (e. g. a right of way) could only be constituted over [illegible] pectui et luminibus non officiendj constitute and imposit vpon ane tenement of land now pertening to m[r] Johnne nicolsoun aduocat. *Ibid.*, And all vther seruitude quhatsumeuer. 1652 Needham tr. *Selden's Mare Cl.* 133 Hereupon Servitudes have been imposed, against the rearing of Houses higher then ordinary. 1681 Stair *Inst. b. *spec.* In English parliamentary use, applied to the period between the opening of Parliament and its prorogation.

The term *autumn session* (instead of 'autumn sitting') is sometimes used to designate the exceptional resumption of the sittings of the Houses, after an adjournment, in what is normally the autumn recess; but this use is condemned by parliamentary authorities as incorrect.

b. Sessions of the peace (in ordinary language simply sessions): the periodical sittings of justices of the peace (or, in some instances, of a stipendiary magistrate or a recorder). Often const. as *sing.*

In England the sessions of the peace are of the following kinds: *petty sessions*, a court held by two or more justices or a stipendiary magistrate, exercising summary jurisdiction in minor offences within a particular district (a 'petty sessional division'); *special sessions*, a periodical meeting of the justices of a division prescribed by statute for the transaction of some particular kind of business (under this head are included *brewster* or *licensing sessions*, for the hearing of applications for licences to sell alcoholic drinks); *general* or *quarter sessions*, a court held four times a year (in a county, riding, etc. by the justices of the peace, and in certain boroughs by the recorder), having a limited criminal and civil jurisdiction and certain administrative functions. (*The sessions*, without qualification, usually denotes the quarter sessions.) Quarter sessions are also held in Scotland and Ireland. In certain British colonies the English system of sessions of the peace formerly existed, and was for a time retained in some of the United States.

Set (set), *v.* Forms: see below. Pa. t. and pa. pple. set. [Com. Teut.: OE. *settan* = OFris. *setta* (mod.Fris. *sette*), OS. *settian* (MDu., MLG. *setten*, Du. *zetten*), OHG. *sezzan* beside *sazzan* (MHG. *sezzen*, G. *setzen*), ON. *setja* (Sw. *sätta*, Da. *sætte*), Goth. *satjan*; causal of **setjan* (*sitjan*) to SIT.

Confusion between *set* and *sit* arose as early as the beginning of the 14th c., owing partly to the identity or close similarity of the forms of their past tenses and pa. ppples., and partly to the identity of meaning in some uses, as between *to be set* (= seated) and *to sit*; cf. SIT *v.* (etym. note and A. 5 a a note). For cases of mere substitution of forms of *sit* for forms of *set*, see A. 1 γ, 2 δ below. The spelling *sett* is still sometimes found in technical senses; cf. SET *sb.*[1]

B. Signification.

General arrangement of senses. I. To cause to sit, seat; to be seated, sit. II. To sink, descend. III. To put in a definite place (the manner of the action being implied either in the verb itself or in the context). IV. To place or cause to be in a position, condition, relation, or connexion. (This group embraces a large number of uses in which the precise implication of sense depends mainly on the kind of construction employed.) V. To appoint, prescribe, ordain, establish. VI. To arrange, fix, adjust. VII. To place mentally, suppose, estimate. VIII. To put or come into a settled position or condition. IX. To put in the way of following a course, cause to take a certain direction. X. Senses perhaps arising from reversal of construction or from ellipsis (their origin being often obscure). XI. With prepositions in specialized senses. XII. With adverbs in specialized senses. (Combinations formed on the verb-stem are given in a separate article, SET-.) ☞ A phrase key is given on page 548.

I. To cause to sit, seat; to be seated, sit.

The intransitive sense 'to sit' (5) was apparently developed out of the reflexive and passive uses of the original transitive sense of 'to seat'. *Set*, being thus used synonymously with *sit*, became capable of taking its other senses and constructions (see 5 d, e, 6, 7).

1. *trans.* To place in a sitting posture; to cause to occupy a seat; to seat.

This sense is barely exemplified outside certain phraseological expressions, e.g. *to set on a seat, a throne, on horseback*, etc., in which the sense 'cause to sit' is now lost sight of. (Prov. *to set a beggar on horseback*: to give an undeserving person an advantage which he will misuse.)

2. An artificial channel or conduit, now usually covered and underground, for carrying off and discharging waste water and the refuse from houses and towns. *Common sewer*: a drain through which all or a large part of the sewage of a town passes, a main drain collecting and discharging the contents of auxiliary drains. Cf. SHORE *sb.*[2]

The development of this sense (*c* 1600) is prob. due to the fact that the drainage of towns near tidal rivers had come under the control of the commissioners of sewers. See Act 3 Jas. I, c. 14 (1606).

Technically, 'sewer' is distinguished from 'drain', the latter being restricted to channels used 'for the Drainage of one Building only or Premises within the same Curtilage' (Act. 11 & 12 Vict. c. 112 § 147).

[*Note.*—In the collocations 'Commission of sewers', 'works of sewers', etc., the word had virtually a much wider meaning than sense 1 above; it practically denotes any means of defence against inundation from the sea. The formula enumerating the things placed under the control of the commissioners begins with 'walls' (1322 more fully 'sea-walls', *murorum maritimorum*) and mentions 'sewers' only in the fifth or sixth place. This had already attracted the attention of lawyers early in the 17th c.; in 1622 Callis (*Stat. Sewers*, ed. 1647, p. 57) states that 'some compound the word of *sea* and *were*' (=WEIR, defence). Although sense 1 is certainly genuine, and the etymology stated at the head of this article is well established, it seems not impossible that there may have been some early confusion with a native compound of the formation suggested by the writers referred to by Callis. No instance of OE. **sǽwer*, however, is known; a (?plural) *sǽ-wǽre*, of obscure meaning, occurs A.D. 1042 (Kemble *Cod. Dipl.* No. 776) 'Sa ieggað æt] Mannæs]

(1314 in *Rolls of Parlt.* I. 319/1) appears to mean 'to protect from flood'.

The pseudo-etymological spelling *seward* (quot. 1623 in 3) is noteworthy. Skinner (Etymol. 1671, s. v.) erroneously attributes to Minsheu the statement that the word 'was formerly written *seward*, perhaps from *seaward*, either because they [*sc.* sewers] are made towards the sea, or because they ward off the sea'.]

SH, a consonantal digraph representing the simple sound (ʃ). In late OE. this sound was represented by the combination *sc*, which retained its original phonetic value (sk) only in words of foreign origin. The sound (ʃ) did not exist in early OF., and hence the early ME. texts, written by French-educated scribes, show great diversity of attempts to find expression for it. The OE. notation by *sc* became rare after the 12th c. Some scribes of the 12–13th c. used the single *s* initially and finally. More frequent was *ss* (used in all positions), which is found as late as 1340 (*Ayenbite*). In medial and final positions *ssh* was common from the 13th to the 16th c. ; Coverdale (1535) has frequently *sszsh*, sometimes *szh* (but also often *sh*). The prevailing form from the end of the 12th c. to the end of the 14th c. was *sch* (initially ; in other positions it was less frequent) ; in the north it was common down to the end of the 16th c. In the 13th c. we occasionally find *sge, sje, sze* for *she* (rarely *sȝ* or *sz* in other words), and in the 14–15th c. some East Anglian scribes wrote *xal, xulde* for *shall, should.* In ME. texts the suffix *-ship* is often written *-chipe*, and sometimes *ch* occurs as the symbol of (ʃ) in other positions.

The combination *sh* (probably to be regarded as a simplification of *sch*) is regularly used in the *Ormulum* *c* 1200 and frequently in the *Trinity College Homilies* of about the same date. It is the usual symbol in the London documents of the 14th c. and in the MSS. of Chaucer, and from the time of Caxton onwards it has been the established notation for (ʃ) in all words except those which (as *machine, schedule, Asia*, the derivatives in *-tion*, etc.) are spelt unphonetically on etymological grounds.

… *head, s* and he pronunciation occurs … elling ; e.g. tæʃ ʃām).

Sh (ʃ), *int.* Also written 'sh (as if an abbrev. of *hush*). An exclamation used to enjoin silence or noiselessness ; = HUSH *int.* The reduplication or prolongation of the sound is indicated by *sh-sh, s-s-sh*, and the like (see quots.).

b. *Shadow of death*: a Biblical expression (= LXX and N.T. σκιὰ θανάτου, Vulg. *umbra mortis*) embodying an ancient interpretation of Heb. צַלְמָוֶת, traditionally vocalized *ṣalmā·veth*, as if f. *ṣēl* shadow + *mā·veth* death.

Ewald and many other scholars, however, think the word should be pronounced *ṣalmūth* (or as pl. *ṣēlāmōth* = Arab. *ṣalamāt*), and that it comes from the Semitic root found in Arab. as ظلم *ẓalima* to be dark. However this may be, it is in the Old Testament merely a poetic word for intense darkness (so the margin of the Revised Version, 'deep darkness'). But the phrase 'shadow of death' has (in Eng. as in Christian Latin and other langs.) often been used with various meanings naturally suggested by the words; the commonest use is to denote the gloom and horror of approaching dissolution.

The valley of the shadow of death (Ps. xxiii. 4 in Eng. versions from Coverdale 1535; the earlier versions follow the Vulg. and LXX, which read 'midst' instead of 'valley'): often applied to the experience of being brought by illness apparently near to the grave.

LG. *schacht* (also Du.) of the same meaning, usually regarded as a specific application of *schacht* = SHAFT *sb.*[2], the primitive notion being that of something cylindrical. It is possible, however, that the type **skafto-* represented by LG. *schacht*, Eng. *shaft* 'pit-hole', may be a separate formation on the Teut. root **skab-* of SHAVE *v.*, in its original sense to dig (cf. Gr. σκάπτειν). On either of these views, it is doubtful whether *shaft* 'pit-hole' goes back to OE. (though not recorded before the 15th c.), or was introduced into England by foreign miners.

Some scholars still adhere to the view of Grimm, that the HG. *schacht* (and LG. *schacht* in this sense) represent a Teut. type **skaxto-z*. Shall (ʃæl), *sb.* [f. Shall *v.*]

1. An utterance of the word 'shall'; a command, promise, or determination (such as is expressed by means of 'shall').

It is doubtful whether quots. 1553 and 1608 belong to this word or to Shale *sb.*[1] Quots. 1566 and 1593 imply the existence of a punning phrase *to feed* or *serve with shalls* (*shales*).

2. The word 'shall' as idiomatically used in contradistinction to 'will'.

1837 Macaulay *Ess.*, *Bacon* (1843) II. 408 Not one Londoner in a million ever misplaces his *will* and *shall*. 1861 Jos. Angus *Handbk. Engl. Shall (ʃæl, *unstressed* ʃəl, ʃ'l). Pa. t. **should** (ʃud, ʃəd). Forms: see below. [A Com. Teut. preterite-present strong verb; OE. *sceal, sculon, sc(e)olde* = OFris. *skil* (*skel, scol*), *skilun* (*skalun*, etc.), *skolde* (*sculde*, etc.), OS. *skal, skulun, skolda*, OLow Frankish *sal, sulum, solde* (MDu. *sal, sullen, solde*, mod.Du. *zal, zullen, zou*), OHG. *scal, sculun, scolta*, also *sal* (*sol*), *sulun, solta* (MHG. *schal* and *schol, schulen, scholte*, also *sal* and *sol, sulen, solte*; mod.G. *soll, sollen, sollte*), ON. *skal, skulu, skylda* (Sw. *skall*, pa. t. *skulle*; Da. *skal*, pa. t. *skulde*), Goth. *skal, skulum, skulda*. The Teut. root (**skel-*:) **skal-* : **skul-* to owe (:—pre-Teut. **skel-* : **skol-* : **skl̥*) is represented by Goth. *skula*, OHG., OS. *scolo*, OE. *gescola* wk. masc., debtor. OHG. *sculd, sculda* (mod.G. *schuld*), OS. *sculd*. OE. *scyld* fem., debt, guilt. Outside Teut. the only certain cognates are Lith. *skelėti* to be guilty, *skilti* to get into debt, *skolà* debt, guilt, OPrussian *skallisnan* (acc.) duty, *skellânts* guilty, *po-skulit* to admonish.

The northern English dialects (including Sc.) have a form *sal*, pa. t. *suld*, with initial *s* instead of *sh*. This does not occur in the remains of ONorthumbrian, but first appears in the 13th c. It is remarkable that a similar form, with *s* irregularly representing OTeut. *sk*, existed as a dialectal variant in OHG. (*sal, sol, sulun*) and OFris. (*sal, sel*), and has ousted the regular form in Ger. (*soll, sollen*) and Du. (*zal, zou*). Some scholars regard the *s* form as representing an OTeut. variant, originating from the euphonic dropping of *k* in inflexional forms like the subjunctive **skli-*. It seems more probable that it was independently developed in the different dialects at an early period, while the *sk*-retained its original pronunciation; in stressless position the *k* might naturally be dropped, and the simplified initial afterwards extended by analogy to the stressed use.

In Eng. the vb. has no inf. or pples. (the evidence of an OE. inf. *sculan, sceolan*, is doubtful). Some of the other Teut. langs. have an infinitive: OHG. *scolan, solan* (MHG., mod.G. *sollen*), MDu. *sullen* (Du. *zullen*), ON. *skula* (pa. t. inf. *skyldu*); Goth. has the pres. pple. *skulands* and the pa. pple. *skuld-s*; OHG. has the pres. pple. *scolanti* (mod.G. *sollend*), and early mod G. the pa. pple. *gesollt*; ON. has a ppl. adj. *skyld-r* bound by duty.]

8. As a mere auxiliary, forming (with present infinitive) the future, and (with perfect infinitive) the future perfect tense.

In OE. the notion of the future tense was ordinarily expressed by the present tense. To prevent *ambiguity, will* (will) was not unfrequently used as a future auxiliary, sometimes retaining no trace of its original sense. On the other hand, *sceal* (shall) even when rendering a Latin future, can hardly be said to have been ever a mere *tense-sign* in OE.: it always expressed something of its original notion of obligation or necessity. In ME. the present early ceased to be commonly employed in futural sense, and the future was expressed by either *shall* or *will*, the former being much more common. The usage as to the choice between the two auxiliaries has varied from *time to time*; since the two auxiliaries has varied from *time to time*; since the various middle of the 17th c. the general rule (subject to various exceptions) has been that mere *futurity* is expressed in the first person by *shall*, in the second and third by *will*. In first person by *shall*, in the second and third by *will*. In indirectly reported speech, usage *permits* either the retention of the auxiliary used by the original speaker or the substitution of that which is appropriate *to the point of view* of the person reporting.

a. In OE. *sceal*, while retaining its primary sense, served as a tense-sign in announcing a future event as fated or divinely decreed. Hence *shall* has

always been the auxiliary used, in all persons, for prophetic or oracular announcements of the future, and for solemn assertions of the certainty of a future event.

THOMPSON *Sister-Songs* (1895) 46 So it may be, so it shall be,—Oh, take the prophecy from me!

b. In the first person, *shall* has, from the early ME. period, been the normal auxiliary for expressing mere futurity, without any adventitious notion. (*a*) Of events conceived as independent of the speaker's volition. (To use *will* in these cases is now a mark of Scottish, Irish, provincial, or extra-British idiom.)

c 1200 ORMIN Ded. 143, I shall hafenn forr min swinnc God læn..3iff þatt I..Hemm hafe itt inntill Ennglissh wennd. *c* 1205 LAY. 8371 Nu we sulleð for heore beone bliðe iwurðen. *c* 1300 *K. 'I *shall* hit', said George coolly. 1863 GEO. ELIOT *Romola* vi, Our personal characters will be attacked, we shall be impeached with foul actions.

(*b*) Of voluntary action or its intended result. Here *I* (*we*) *shall* is always admissible exc. where the notion of a present (as distinguished from a previous) decision or consent is to be expressed (in which case *will* must be used). Further, *I shall* often expresses a determination insisted on in spite of opposition, and *I shall not* (colloq. *I shan't*) a peremptory refusal.

In the 16th c. and earlier, *I shall* often occurs where *I will* would now be used.

c 1200 ORMIN 11557 Icc shall beon a33 occ a33 wiþþ 3uw Whil þatt tiss weorellð lasstebþ. *a* 1225 *Leg. Kath.* 396 We schulen bringen to ende þat we bigunnen habbeð. *a* 1300 *K. c. In the second person, *shall* as a mere future auxiliary appears never to have been usual in affirmative or negative senses (exc. in the uses treated under 9 b and 11); but in categorical questions it is normal: e. g. '*Shall* you miss your train? I am afraid you will.'

d. In the third person. *Obs.* (superseded by *will*) exc. when another's statement or expectation respecting himself is reported in the third person, e. g. 'He says he shall not have time to write.' (Even in this case *will* is still not uncommon, but in some contexts leads to ambiguity; it is therefore preferable to use *he shall* as the indirect rendering of *I shall.*)

¶ e. Down to the 18th c., *shall*, the auxiliary appropriate to the first person, was sometimes used when a person wrote of himself in the third person.

Cf. the formula: 'And your petitioner shall ever pray.'

g. Used (after a hypothetical clause or an imperative sentence) in statements of a result to be expected from some action or occurrence. Now (exc. in the first person) usually replaced by *will*; but *shall* survives in literary use.

h. In clause expressing the object of a promise, or of an expectation accompanied by hope or fear. Now only where *shall* is the ordinary future auxiliary; but down to the 19th c. *shall* was often preferred to *will* in the second and third persons. Cf. sense 11.

9. In the idiomatic use of the future to denote what ordinarily or occasionally occurs under specified conditions, *shall* was formerly the usual auxiliary. In the second and third persons, this is now somewhat formal or rhetorical; ordinary language substitutes *will* or *may*. Often in antithetic statements coupled by an adversative conjunction or by *and* with adversative force.

10. In hypothetical, relative, and temporal clauses denoting a future contingency, the future auxiliary is *shall* for all persons alike. (Where no ambiguity results, however, the present tense is commonly used for the future, and the perfect for the future-perfect; the use of *shall*, when not required for clearness, is apt to sound pedantic.)

†Formerly sometimes used to express the sense of a present subjunctive.

a. In hypothetical clauses.

e. In statements of a former likelihood, unlikelihood, expectation, hope, fear, etc.

In present usage the rules for the choice of the auxiliary are the same as apply to the future tense (see 8). Until the middle of the 19th c., however, *should* was common in this use in the second and third persons, where *would* is now normal.

*** *The past tense* should *with modal function.*

As with other auxiliaries, the pa. t. (orig. subjunctive) of *shall* is often used to express, not a reference to past time, but a modal qualification of the notion expressed by the present tense. Where in addition the notion of past time is to be expressed, this can often be effected by the use of the perf. instead of the pres. inf. (though sometimes this produces ambiguity); the temporal notion may however be merely contextually implied, and in that case the pa. t. has the appearance of having both functions (temporal and modal) at once.

18. In statements of duty, obligation, or propriety (originally, as applicable to hypothetical conditions not regarded as real).

This conditional form of expression was from an early period substituted for the unconditional *shall* in sense 2, and in mod. Eng. the pres. tense in this use is obs., and *should* = ought to.

b. When the pres. tense of the principal vb. would be used if the hypothesis were accepted. (Where the pa. t. or the perf. would be used, *should* is followed by the perf. inf.)

In this use the combination of *should* with inf. forms a periphrastic past subjunctive: thus 'I should be' = the archaic 'I were'. Similarly with perf. inf.: 'Then I should have been' = 'then had I been'.

The choice between *should* and *would* follows the same rules as that between *shall* and *will* as future auxiliaries, except that *should* must sometimes be avoided on account of liability to be misinterpreted as = 'ought to' (sense 18).

c. With verbs of liking, preference, etc., *should* in the first person (and interrogatively in the second) is regarded as more correct than *would*, though this is often used.

In the third person *should* is used only in indirect speech (when *he* represents *I*); uses like quot. 1862 are abnormal.

The forms *I should have liked to* (*see*) and *I should like to have* (*seen*) are alternative ways of adding the temporal notion to the modal sense of *should*. Another form, sometimes met with, but certainly faulty, is *I should have liked to have* (*seen*).

d. The original conditional notion is obscured in the phrases *It should seem* (see Seem *v.* 7 f); *one should think* (now somewhat *arch.* and perh. sometimes interpreted in the sense of 18). Similarly *I should think* (*suppose*, etc.) = 'I am inclined to think (suppose, etc.)'; also *colloq.* as a strong affirmation in reply to a tentative suggestion, e. g. 'I should (rather) think he *did* object'.

In the last phrase (as used idiomatically), *would* is never substituted; in the second person the phrase is used only in questions, and in the third person only in oblique narration.

21. In a hypothetical clause relating to the future, *should* takes the place of *shall* (indicative or subjunctive), or of the equivalent use of the present tense, when the supposition, though entertained as possible, is viewed as less likely or less welcome than some alternative. (With future, future perf., or imperative in the apodosis.)

22. In a noun-clause (normally introduced by *that*).

a. In dependence on expressions of will, desire, command, advice, request.

Where the verb of the governing clause is in the pa. t., this use is indistinguishable from that treated in 14 d.

The substitution of *should* for the earlier *shall* (itself a periphrastic substitute for the more primitive use of the pres. subjunctive: see 11 a) may have arisen from instances in which the governing vb. was in the modal pa. t. (as in quots. *c* 1200, 1340).

Commonly explained as in some way connected with *sham*, north. dial. form of Shame *sb.* and *v.* This is not impossible, on the supposition that the slang word arose from some once well-known anecdote or incident in a play. The following quot. may possibly contain a genuine tradition, but the alleged origin does not seem to account satisfactorily for the sense in the early examples. (North says that the word was introduced into general use, in the phrase 'sham plot', by Dangerfield; but it was already common some years before 1680, the date to which this statement refers.)
a 1734 North *Exam.* II. iv. § 1 (1740) 231 The word *Sham* is true Cant of the Newmarket Breed. It is contracted of *ashamed*. The native Signification is a Town Lady of Diversion, in Country Maid's Cloaths, who to make good her Disguise, pretends to be so *sham'd*! Thence it became proverbial, when a maimed Lover was laid up, or looked meager, to say he had met with a *Sham*.]
